Sheryl,

Elizabeth Winter, Taos Environmental Director, called this morning to check if we've had time to designate a Superfund technical staff person to serve on a MolyCorp Mine ??? Committee. The first meeting has been scheduled for February 25 in Santa Fe. The group will be reviewing the Mine Closure Workplan. With this designation, she says we also need an alternate. The sooner we do this, the sooner they can start sending us information and correspondence. I don't have any more information than this.

We can talk about this at the next Superfund staff meeting. OK?
